Looking After Our Oceans

@C2C3CH29

Our joint Irish-French project aimed to engage our students in STEM education and in the theme of Ocean Sustainability through the medium of art and drama.

Our project included:

- **Music** - songs relating to the ocean
- **Drama** - original musical dramas with a message of ocean sustainability
- **Recycled art** - made from rubbish found during beach clean-ups
- **Board games** focusing on biodiversity
- **Beach safaris** - learning about marine life
- **Beach clean-ups**
- **International cooperation** between our schools in Ireland and France

Our STEAM focus was on

- Active Learning
- Collaboration
- Curiosity
- Creativity
- Critical thinking
- Communication
- Inquiry-based learning

STEAM Learning

Through International Cooperation and the ARTS

Working together for a sustainable future
